## Arrowwood's Sports Day Celebration on Monday, June 3rd

### Queenstown Items

The Social Credit meeting held in Queenstown on Saturday night was well attended even though the roads were in terrible condition. Many questions were asked and answered.

Mrs. Rubbelke and Agnes were visitor to Calgary this week.

Mr. Dave Dunmore was a visitor to Queenstown over the week-end.

### Baseball Game a Tie

Queenstown, May 21.—Arrowwood and Queenstown played a seven-inning 3-3 tie in the first baseball game of the season here tonight. The game was productive of some very good play for this time of the season. Ford Mallett turned in a 3-hit pitching performance for the local team with no runs earned against him and five strikeouts. Errors in the third inning paved the way for Arrowwood's three runs, and this was the only inning in which the visitors tallied. Queenstown scored three in the first inning when Cliff Asseltine and Elmer Thompson clouted out a pair of three-base hits. Thompson figured in Queenstown's third run in the fifth when he hit a two-bagger after Roy Sharpe was safe on an error. Other hits were made by Archambault, B. & F. McCullough for Arrowwood, and by Sharpe, Soli, McLaughlin (2) and Laid (2) for Queenstown. Queenstown led seven men on bases to Arrowwood's two, but were unable to bring the winning run across the plate. Dunka pitched three innings for Arrowwood, and Miller four. Both were effective in the pinches.

### Notice

We, the undersigned, barbers in Arrowwood, have found it necessary to raise prices to conform with the prices in towns surrounding us, taking effect May 27. They will be as follows:  
Adults Hair Cut 35c  
School children 25c  
R. H. Anderson  
E. D. Archambault

### TRAIN SCHEDULE AT GLEICHEN

No. 1 Westbound	8:25 p.m.
No. 3 Westbound	8:45 a.m.
No. 2 Eastbound	4:51 a.m.
No. 4 Eastbound	7:18 p.m.

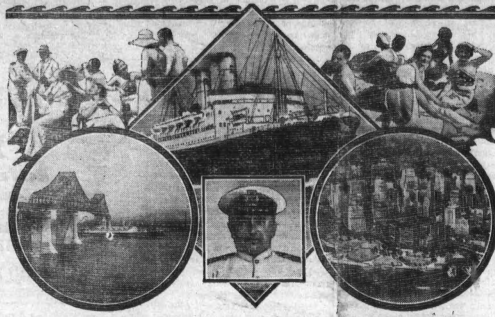

Arrowwood  
West bound, Tues., Thurs., 1 p.m.  
East bound, Wed., Fri. 1:30 p.m.

### For a Special Treat Serve

#### Palm Ice Cream

Available in Assorted Flavors in Bricks or Bulk at the

Arrowwood Bakery

Fourteen thousand eight hundred and forty-three happy holidaymakers won't be wrong, or so the Canadian Pacific Steamships expect to prove this summer with four short sea cruises by the Duchess of Richmond between Montreal and New York.

During the last three summers two Duchess liners have made between them eleven of the nine day trips, the popularity of which has been shown by the fact that 14,843 passengers were carried on these vacation cruises.

The Duchess of Richmond's cruise departures from Montreal will be on July 21, July 31, August 10 and August 20, and from Quebec the evening of the same day. Sixteen hours will be spent in New York on July 25, August 4, August 14 and August 24, with return to Montreal on July 29, August 9, August 19 and August 29. The day prior to arrival in Montreal eight hours will be spent in Quebec, with opportunities and facilities provided for exploration of the Ancient Capital and surrounding districts such as the Cote de Beaupre, with its famous Shrine of St. Anne. Sightseeing trips in New York will also be arranged for those who wish to take them.

All the "trimmings" such as characterise a lengthier cruise have been planned for the Duchess of Richmond's nine day cruises, and each day of the trip down the majestic St. Lawrence and across the scenic coasts of Nova Scotia and New England will be a complete experience in itself.

Facilities for enjoyment, both in exercise and relaxation, include an open-air swimming-pool, a gymnasium, deck-tennis, horse-racing, shuffleboard and many other sports, and also the opportunity for lay day-sightseeing, for which no better medium can be found than a comfortable deck-chair on a long sunny afternoon.

William Webber, who has directed all previous "Duchess" cruises to New York, will again be cruise director, and all manner of entertainment and organized enjoyment for the cruise members will be provided under his direction and that of the Staff-Captain and the Directress of Entertainment. In command will be Captain Arthur Rothwell, for several years commander of the Montcalm and recently appointed to the Duchess of Richmond.

### Jr. W.A. Bazaar

#### A Success

A large crowd attended the bazaar and ten sponsored by the Jr. W.A. under the leadership of Mrs. Parnell and held at the Clifford home on Sat. May 18.

The booths were artistically decorated with pink and blue streamers fastened at the bottom with rosettes of the same color.

The needlercraft included a large variety and displayed much talent along that line.

The girls waiting on the tea tables wore smart aprons and caps.

The whole affair displayed a great deal of time and labor on the part of the girls and their leader.

All this however was the result of a very successful bazaar upon which they should be congratulated. Mrs. Parnell on behalf of the girls, wishes to convey her appreciation to all who in any way assisted them with their bazaar. The girls still have a number of articles for sale.

If you want a real holiday, full of entertainment, come to Arrowwood, Monday, June 3rd. Athletic events, baseball, basketball, softball, Horse Shoe Tournament and Tug of War are among the attractions.

The Len Davis orchestra have been engaged to play on the grounds during the afternoon of Monday June 3. There will not be a dull minute at any time. Put aside your troubles and come to Arrowwood Sports Day for a real time.

All roads lead to Arrowwood on June 3rd. Keep this date in mind and bring the family for a real day of entertainment.

## Social Credit Meeting

A Big Social Credit Meeting Will be Held in the Arrowwood Curling Rink, on

Wednesday, June 5th, at 8 p.m.

SPEAKER: MRS. GOSTICK

Everybody Welcome

### U.F.W.A. Notes

The U.F.W.A. met Wednesday afternoon May 15 at the home of Mrs. J. McRae, Shouldice. Nineteen members and five visitors answered roll call "Quotations for Mother."

Plans were made for this local to attend the U.F.W.A. Conference on May 20 at Queenstown. Mrs. F. J. Malloy, Mrs. F. G. Fulton and O. L. McPherson, M.L.A., will be guest speakers of the afternoon. Plans are under way for the making of a U.F.W.A. autograph quilt.

Program for the afternoon: Paper on Legislation—Mrs. Richards. Paper—Mrs. V. E. Vancil Solo—Miss H. Kennaugh. Piano Solo—Myrtle McRae.

A dainty lunch was served by the hostess with Mrs. R. F. Williams assisting. The next meeting will be at the home of Mrs. M. H. Ward on Wednesday afternoon, June 15.

Two hundred dollars in prizes are being offered for the various athletic events to be held at the Arrowwood Sports Day on June 3. Come and bring the family. Admission for the Day Adults 50c, all children free.

### Church of the Brethren Notes

Sermon subjects: Sunday morning, May 20th, "The Accused Christ," Sunday evening, "The Seven Blunders of the World."

Sunday, June 2, "Preparing for the Church's Birthday: Evening, 'Open Windows'—A Young People's special service, June 9, "The Birthday of the Church," Evening, a program by the children.

Prayer service, 7:30 p.m. each Sunday evening.

Intermediate service, 7:30 each Sunday evening.

The ministers and deacons and their wives are invited to the parsonage for dinner and the communion, June 2nd. A cordial invitation is extended to the people of the community to attend each of the services of the church.

### NOTICE

It is requested that all citizens of town co-operate in cleaning up yards, lanes, etc. before June 1st.

Local Board of Health

### Arrowwood Notes

Meet at Arrowwood, June 3rd.

The total moisture for the past week, as recorded by the Seale Grain Co., is 38 in. Total since April 15th, 1.08 in.

Boys and girls remember a prize is being offered in the parade on June 3rd for the boy or girl entering the oddest pet.

Mrs. Gostick will speak on Social Credit in the Arrowwood Curling Rink on Wednesday, June 5th, at 8 p.m. Everybody welcome.

On the evening of June 3rd there will be a dance in the school auditorium, music by Len Davis' Orchestra. Don't miss it.

Teams competing in the Baseball tournament on June 3rd are Lomond, Queenstown, Blackie and Arrowwood. Come and cheer the boys to victory.

Mrs. N. McCollman entertained a few friends at tea Tuesday afternoon, May 21 in honor of her sister, Mrs. N. Thom, of Calgary, who has been visiting with her for the past week.

Among the attractions on Sports Day, June 3rd, will be a basketball game and a softball game between the Strathmore High School Girls and the Arrowwood High School girls.

FOR SALE—Square Dining Table, medium sized round oak table, wicker tea wagon, wicker fernery, rocker. Will be sold cheaply for cash. Apply Resource Office.

The Arrowwood Sports Day June 3, will be one of the outstanding events of the year. Don't fail to come early and witness the grand parade which starts at 10:30 sharp.

The "Guides Own" church service was held Sunday morning, May 19th. All Brownies, Guides, Rangers, Scouts and Cubs attended the Arrowwood United Church in a body. Mrs. V. M. Gilbert officiated at this service. Hymns were sung by the Brownies, Guides and Rangers. At the close of the service Rev. V. M. Gilbert conducted the beautiful and impressive ceremony of the Dedication of the Colors.

### Peace Day Program

The pupils of grades 4-6 observed Peace Day by carrying out the following appropriate program:

1. O Canada
2. Flags—Exercise by grade 4
3. Chorus—Peace to all the World
4. Heroes of Peace—An exercise by grade 6
5. Piano Solo—Dorothy Joan Jones
6. World Neighbors—A play by grade 5
7. The Flag goes by—A reading by K. Riches
8. God Save the King

### Bow Valley Baseball League Formed

At a recent meeting held at Strathmore a baseball league was formed, comprising the towns of Rockyford, Strathmore, Gleichen and Arrowwood. These towns will play under the name of the Bow Valley Baseball League, and with the interest created we should see a splendid type of ball played here this year. We have good material locally, for a team, and the boys are appealing for your support. The league will open about May 29 and the schedule will appear in this paper at an early date.

### Shouldice News

Many of the Shouldice people attended the Social Credit meeting held in Queenstown Saturday night.

The farmers around here have about finished seeding. The rains have been a wonderful help to the crops.

Miss Kennaugh was a visitor to Mr. and Mrs. A. Soli, Queenstown, over the week-end.

Mr. and Mrs. R. W. Brown or children were visitors Sunday to the home of Mr. and Mrs. H. Watwood.

We hear Shouldice is to have a new oil station again. This will be a great help to the farmers here.

Mr. and Mrs. Joe Robison an family of Strathmore were visitors to Mr. and Mrs. McRae and Mr. and Mrs. Sloan.

Mr. John Fofanoff Sr., of this district died Saturday, May 18 after a lengthy illness. He was 70 years of age and leaves a wife and one son, John. The funeral was held on Sunday May 19, interment taking place in the Donkhorbor cemetery.

## Your Boys

I have four sons, two of them approaching the age when they must go out and face the earnings of a living, writes a man in a newspaper. He is disturbed and troubled over the prospect of the difficulties which for the time being may confront these young men in obtaining employment and making a start in life? No, he is wise enough and has had experience enough to realize that countless thousands of other young men starting to carve out careers for themselves had to face difficulties and had many obstacles to overcome. No doubt he passed through such experiences himself. It was the way of the world since time immemorial.

Nevertheless this father of four boys is worried. He has reason to be, and so, too, have other parents all over the land. This man writes that all this recent propaganda, these ever repeated demands that the Government should guarantee "the security of the home, the security of livelihood and the security of social insurance" causes him to wonder if the prospect of so much sheltering, so much safeguarding, so much financial protection, so much paternalism will cause his boys to discount, disregard, despise his teachings.

I have, he says, tried to impress upon them that they must set themselves to make their own way in the world, that they must develop self-reliance, that they must cultivate a spirit of many independence, that they must be prepared to earn every penny coming to them, that they must expect nothing for nothing in this world.

To achieve this, I have emphasized that they must be studious and industrious, that they must exercise rational frugality and self-denial until they have accumulated a competency, that they must aspire not only to take care of themselves and their dependents, but to acquire means to aid generously those who are in need.

I have warned them against extravagance, ostentation, thriftlessness, thoughtlessness, in order that they may escape the hardships and humiliations which befall so many in old age, explaining that it is infinitely better to be able to bestow charity than to be compelled to accept it.

"Don't let any professor convince you," I tell them, "that the world owes you a living." Get it firmly into your head that it is up to you to get yourself to earn a living and that you will encounter plenty of competition. Don't hesitate to sacrifice in the fore part of your life if you hope to fare well in the later part of your life. Rainy days will come. Make diligent provision for them."

I tell them that, going forth in this spirit, eager to put more into the world than they hope to take out of it, and possessing unshakeable faith in the eternal laws of justice and righteousness, they will find life joyous, they will accept difficulties as a challenge to their manhood, that, doing the right, they will never be tempted to give way to despair, but will find their own life increasing in happiness and service with the passing years.

Above all, that they must not be drowsy, loafers, leaguers; that they must exert themselves to the utmost to be useful; that through self-discipline and self-denial they may reasonably hope to earn the means to practice generosity and usefulness.

Now, however, there is danger before them the prospect of an earthly Utopia, ruled by a Santa Claus Government, pictured as prepared to assume responsibilities which I was taught could be and must be discharged only by each individual for himself, responsibilities which were portrayed not only as inescapable, but as essential to the development of sturdy manhood, development of the very character of sterling character.

I am somewhat troubled lest my own young men and other young men may imitate the action that heretofore there is to be less need for personal effort, less need for self-denial and self-discipline, less need for sacrifice to save, less necessity for self-reliance, less occasion to worry over finding work to do in the effort to avert to perform it unostentatiously, less reason for systematically striving to provide for old age.

Perhaps this man is unduly concerned about the effect which all the loose talk of to-day about taking no thought of the future—that the Government will look after everybody at all times and under all possible sets of circumstances—is having on the youth of the country. Possibly his anxieties and questionings will prove wholly unwarranted. Let it be hoped so for his sake, and the sake of his four boys and of all other young men who may be tempted to disregard the teachings, the lessons and experience of past generations, and, throwing self-reliance and self-effort to the winds, become leaguers of the State.

Nevertheless, all thoughtful and conscientious fathers and mothers must be perturbed as they witness the outpourings of dreamers and faddists preaching false doctrines and seeking to win the young people of to-day away from acceptance of and belief in those cardinal qualities which constituted the character of the men of men of men who have left their witness on the life and progress of the world, and lived useful lives. The worst enemies of youth are those self-appointed advocates and saviours who present to them as ideal a life of contentment and leisure, free of personal responsibilities, free of worry, free of difficulties, with Governments playing the role of Santa Claus every week and month of the year.

## Chain Is Growing

The solid gold chain worn by the Lord Mayor of Toronto, worth \$50,000, has been handed down from official to official for the past 237 years without so much as a link being fished in transit. Indeed, it's the custom for the outgoing Lord Mayor to add a gold link to the chain as he passes it to his successor.

## There are 14 breakfast food factories in Canada, of which 11 are in Ontario, two in British Columbia, and one in Manitoba. Canadian prepared breakfast foods have gained an international reputation, finding their way into almost every country of the world. The great amount, however, valued at \$2,500,000, goes to the United Kingdom.

## Improve Montreal Harbor

## May Move Passenger Section Five Miles Eastward

Plans for the complete rebuilding of Montreal harbor were outlined at a meeting of the Montreal harbor commissioners. The plans would allow quicker access from the St. Lawrence river, higher water, easier dredging in the softer bottom and elimination of the "St. Mary's current."

It was learned the harbor plans will in time move the whole passenger harbor about five miles eastward. The drawings show eight piers, four of which will be long piers likely accommodating two ships, while in between them are four shorter piers. It is expected the new piers will accommodate about 40 vessels.

Decision to move the harbor further east, it was learned, came after a statement by Chief Harbor Engineer Paul Leclaire that dredging is a much easier task in the softer bottom further down the river.

Moving of the passenger section eastward, with softer bottom allowing easier dredging, and deeper water, is expected to bring larger ocean-going ships to Montreal. In time it is hoped to have the channel deepened to 40 feet.

The St. Mary's Current, which makes shipping at times hazardous, is practically negligible further down the river, it was stated.

The new harbor development would cut down the time in the run from Quebec to Montreal by about an hour.

## SHE PLAYS ORGAN AT 75 YEARS

## Takes Kruschen To Keep Rheumatism Away

Writing to tell how she keeps her activity, this wonderful old woman says:

"My hands were becoming so crippled that I had to give up piano and organ playing—and almost entirely gave up knitting. I have been using Kruschen salts for nearly two years, and am very pleased with the result. Last August, I played two church services on the organ and hope to do again this August. My fingers are nearly straight, and I am 75. I have recommended Kruschen salts to many people."

The six mineral salts of Kruschen are a natural product of the whole bloodstream, neutralizing uric acid, which is the recognized cause of rheumatism. They also restore the eliminating organs to proper working order and so prevent accumulation of uric acid, and thereby checking the further formation of uric acid and other body poisons which underlie the health.

## Currency Stabilization

## Want Anglo-U.S. Conference To Settle The Question

Stabilization of world currencies was introduced in the budget debate in the British House of Commons by Sir Herbert Samuel, leader of the Liberal opposition, and other speakers.

"I wish the chancellor in his report had expressed a desire to secure a measure of stabilization of currency and would have told us some form of a conference is contemplated with the United States upon which, fully as much as upon ourselves and France, the decision rests," said Sir Herbert.

"Japan depreciates the yen, America the dollar, Belgium the 'belga' Britain the pound," Sir Herbert continued. "Depreciation is one of the prime reasons for the low level at which the state of the world continues."

"I regret the chancellor has made no survey of this important factor," Sir Herbert said. "I am sure, however, that the school Sir Herbert's sentiments."

## Dominate Cotton Industry

## Japanese Wrestling The Industry From Chinese Territory

Japanese commercial expansion in North China has reached the point of almost complete domination of the cotton industry, most important enterprise in the area, with only Yeh null remaining wholly under Chinese ownership.

Threats of actual military penetration of this region, formerly the seat of the Chinese dynasty, have long since died down, but observers point out the Japanese conquest of the vast territory north of the Yellow river continues with Japanese capitalists, diplomats and businessmen taking up where the soldiers left off.

The first book of American cooking recipes has been attributed to Rima Leslie, Bostonian, the date being 1830.

## Real Market For Seeds

## Canada Imports Thousands Of Pounds From Many Countries

Since last July Canada has imported over 1,000,000 pounds of field crop seeds and 687,000 pounds of garden seeds not including flowers. Among the biggest importations are 484,000 pounds of alfalfa seed, 80,000 pounds of blue grass, 32,000 pounds of Cheviot's fescue, 465,000 pounds of red clover, 180,000 pounds of Red Top, 48,000 pounds of perennial ryegrass, 149,000 pounds of timothy seed, 47,000 pounds of white clover, 242,000 pounds of mangel seed, 57,000 pounds of rape, 732,000 pounds of sugar beet seed, 125,000 pounds of vetches.

In the garden seeds there were 83,000 pounds of beans, 64,000 pounds of beet seed, 70,000 pounds of carrot seed, 123,000 pounds of corn, 15,000 pounds of cucumber seed, 27,000 pounds of lettuce, 28,000 pounds of onion seed, 297,000 pounds of pea, 81,000 pounds of radish, 51,000 pounds of spinach, 14,000 pounds of turnip seeds.

The source of origin of these seeds is of interest; for instance the peas came chiefly from the United States and the British Isles, but there was also some from France, New Zealand, Holland and Japan. Over four hundred pounds came from the British Isles and the United States and also from Holland, Denmark, Japan and China.

The seed of Kohl rabi was collected from the United States, Great Britain, Holland, Denmark and Italy.

The sugar beets came chiefly from Germany, but there were also sizeable amounts from Britain, Czechoslovakia, Poland, Holland, the United States and Denmark. Spain enters into the picture in the onion seeds as well as the U.S.A., the British Isles, France, Holland, Italy, Japan and China.

## Strange Substance

## Produce Hormone That Has Effect Of Taming Wild Animals

Isaiah's prophecy that the lion and the lamb shall lie down together and a little child lead them was shown to be a scientific possibility at the American Philosophical Society meeting in Philadelphia.

The chemical substance to tame both animals is available if anyone wants to try it out.

The society was shown motion pictures of a fierce, flesh-eating, grown rat lying down with a new-born squab and trying to mother it. The pictures were shown by Dr. Oscar Riddle, of the Carnegie Institution of Washington.

The rat had received an injection of prolactin, a hormone produced by the pituitary glands of human and all mammals, including lions. The rat was an unmated female, with nothing but wild instincts, and no previous experience with mothering anything.

The prolactin induced immediately a maternal instinct so powerful as to make the rat's natural appetite for eating young disappear.

Prolactin was discovered three years ago by Dr. Riddle. Previous experiments with it indicate that it acts on all animals in similar fashion.

Its primary function is to cause female mammals to give milk for their young. It has done that even when given to males.

The milkman is becoming quite diversified in his line of products. Not only does he deliver orange juice, eggs, cheese and milk to New York residents, but in Providence he has added oysters to his morning deliveries.

The Big Bend area of Texas is a triangle of about 5,000 square miles enclosed by the big bend of the Rio Grande river.

## Little Journeys In Science

## SOAP

(By Gordon H. Guest, M.A.)  
When fat or oil and alkali are heated together under proper conditions soap and glycerin are produced. Soap is made commercially in very large scale. The oil or melted fat is poured into huge kettles together with a solution of soda or potash. The kettles are very large, 500,000 pounds or more of soap is made in some of them in a single heating. They are provided with coils of steam-pipes for heating the soap.

The fat and alkali are stirred by forcing live steam into the bottom of the mixture. The chemical reaction which takes place in soap-making is completed in about one day. The soap is then suspended as very fine particles in the liquids present, or the chemist would say that the soap is in the form of a colloidal dispersion. To obtain the soap in the solid form common salt is added and this process is known as "salting out."

After the salt is added and the mixture heated, the soap rises to the top of the liquid and the soap thus obtained is purified by washing and settling processes, and is then run into the mixing machine called the crutcher. Here it is mixed with substances such as perfume, borax, waterglass, or washing soda. It is then run into large moulds called frames to harden, after which it is cut and pressed into cakes of the desired size.

Transparent soaps are usually made by dissolving dry soap in alcohol and adding from 15 to 25% of glycerine. Castile soaps are made of olive oil. The colour of most soaps is produced by the addition of various dyes or natural pigments. Floating soaps owe their lightness to bubbles of air and naphtha. Soap powders usually consist of a mixture of washing soda and ground soap to the extent of 10 to 25%.

The total value of the imports of bulbs, plants, and shrubs imported into Canada in 1934 amounted to \$60,187. The Netherlands supplied 62 per cent. of these imports; the United States, 9.7 per cent; Belgium nearly 7 per cent, and Great Britain under 5 per cent.

## TIRED and IRRITABLE

DO YOU feel weak and nervous? Is your housework a burden? Take Lydia E. Pinkham's Vegetable Compound. Mrs. M. A. Kelly of Woodstock, New Brunswick, says:

"I was weak and rundown, my neighbor brought me your Vegetable Compound. It helped me so much that I am taking it now as the 'Charger'."

Get a bottle NOW! It may be just the medicine YOU need.

## TO ALWAYS GET FAST PAIN RELIEF

An Aspirin tablet starts disintegrating as soon as it touches moisture. That means that Aspirin starts "taking hold" - even even a bad headache, neuritis or rheumatic pain almost instantly. And Aspirin is safe. Doctors prescribe it. For Aspirin does not harm the heart.

Be sure to look for the name Bayer in the form of a cross on every Aspirin tablet. Aspirin is made in Canada and all drugs have it.

## THE TENDERFOOT

By **GEORGE B. BODNEY**

Author of "The Coronado Trail," "The Canyon Trail," Etc.

CHAPTER XVII.—Continued

"Where'd you bury him?" asked Stone shortly.

"Over there... Our fire was there... His rifle pointed to a dip in the land. The drifting sand had filled the hollow and at first Stone did not recognize the place. "It was a steepish there..." Peypot pointed... "Next thing I knew that Mat' Sam walked me up and I knew it... He buried him over by that clump o' mesquite."

Stone flung him aside and walked over to the pile of loose rocks. How much of this fantastic tale was true; how much the phantom of a disordered mind?

He threw those rocks aside as a boy throws pebbles and he was breathless when he saw what he sought... some tattered rags and a scrap of old leather that the coyotes had left. There was more than that but the desert wind and the sun and the scurrying winds had done their work and he uncovered only a handful of sand-scoured bones to tell whether Peypot Gregg had lied or not. His hand hung poised over the skull that, for reasons he hated to touch. But that skull was vital. If Peypot told the truth that skull would be shattered.

He glanced at Peypot, but Peypot had got out of his doped cigarette and was oblivious to all. He picked up that repulsive skull and examined it carefully. If Peypot had killed this man by smashing his head with a rock then the bones would be broken. But the skull was intact. Not till he turned it over, about to cast it aside, did he see a gaping hole.

## 1000 PAIRS OF MONARCH DEBUTANTE SILK STOCKINGS Free!

Go to your druggist or department store and buy RIT Dye (any color, 15¢-2¢ for 25¢), that it. Then tell us in a letter of 50 words, why you prefer RIT—1,000 pairs of Monarch Debutsante silk stockings—fashioned—shadow-free pure silk—guaranteed \$1.00 value—will be given to you in 1,000 extra. There are dozens of reasons why you will prefer RIT. Write us in 33 brief brilliant colors, from which can be produced over 250 of the newest shades.

**FAST COLORS WITHOUT BOILING!**  
Only RIT offers this advantage! RIT is the modern tint of dye—easier and safer—far better to ordinary "harsh dye" because it contains a potent ingredient that makes the color last in water, set faster and last longer. Sold everywhere.

### HOW TO WIN

1. Write a short statement (25 words) on why you prefer RIT Dye and send it together with an RIT package (or reasonable facsimile) and your name and address, to John A. Hutton RIT Co., 42 Adelaide St., Toronto.  
2. Send as many as you wish; correct closes midnight June 25, 1935.  
3. 1,000 prizes will be awarded on the basis of the judges, which will be final.  
Whether you win or lose, RIT is the modern tint of dye—easier and safer—far better to ordinary "harsh dye" because it contains a potent ingredient that makes the color last in water, set faster and last longer. Sold everywhere.

**THEY AND OTHER**  
The penalty for murder in this State is hanging! Cattle-rustlers' and belis accessory before the act in a shootin' case carries a stiff sentence too...  
NOT A SHIP!

in the back. Then he heard the "chink-chink" of some solid object inside it. Doubtless it was a pebble that had worked its way inside the skull. He turned the grewsome object over and over in his hands. Then something dropped at his feet with a soft thud and, glancing at it, he dropped the skull with a sharp oath. There, lying between his feet, fastened as to the point, its sides scarred with green verdigris, lay a forty-one caliber shot lead bullet!

With a quick little gasping oath, he picked it up and tilted it to the hole in the back of the skull. It fitted! There was no doubt about it. The man had died, not from having his head smashed with a rock but from a bullet shot through the back of his head at very close range.

He replaced all the bones except the skull, repaid the rocks and went back to the horses where Peypot sat crouching against the wind.

"This man was shot with a forty-one caliber gun," said Stone angrily at his stupidity, kicked him.

"This man... It's Kane!"  
How'd I know if it's Kane?" said Peypot.

"Look at his shoes," said Peypot with a steady intelligence. "He was put 'K' on the heel in iron tracks."

After long search Stone found one shoe and came back satisfied.

"Where'd you get that gun from that you shot Kane with?" he asked. At that Peypot came to life.

"I never had a gun in my life," he said. "But when I looked the gun from Mat' Sam. You got that, huh?"

"Yes, Sheriff Gregg's got it now. Who did that gun belong to?"

"I told you I lifted it from Mat' Sam..."

"And he was with you up here when..." when Kane was killed?"

"Yes, he sure was..."

Stone stood and stared at him. He could hardly believe what he knew, yet he knew it. He turned to his pony, reared the saddle and whirled on Peypot.

"Get into saddle at once," he snapped. "We're going back at once!"

### CHAPTER XVII.

Dustin's summary arrest galvanized Stone. Men gathered round every store discussing it and questioning for details. For five years Sam Dustin and Goddard had been considered immune to arrest and now Jim Gregg had taken him as casually as he might have taken any common brawler and no man knew exactly why. He met Dustin outside the Silver Dollar and touched him on the arm as Dustin stopped Doc Bays to question him about the reported death of Gerald Keene.

"I've got a warrant for your arrest, Dustin," he said. The charge is open violation of the Narcotic Act.

"What?" Dustin spun about and his eyes snapped. "You mean that you're arresting me? You're crazy, Sheriff."

"Mebbe. That's got nothing to do with the matter. The question is are you comin' with me or do I have to take you."

"There was a light in Jim Gregg's eyes that spoke more plainly than words. Dustin made up his mind at once.

"I'll come with you of course. This is absurd... Who's sworn out the warrant?"

"A man named Stone from the Hourglass. He swears he found you with your pockets stuffed with peypot cigarettes and Peypot Gregg says you've kept him supplied for years."

"The... the lying hound..."

Dustin burst into a torrent of invective. "You mean to tell me that you're arresting me, a well-known citizen here, on such an absurd charge? I want to see a lawyer first of all."

"First of all, you'll come with me," said Gregg who knew that, with Dustin once locked up, he could keep him uncommunicated for some time.

There was no help for it and Jim Gregg, mindful of details, did not forget Dustin the hospitality of his house as he had done with Carr. He conducted his prisoner to the only lock-up in Secco and locked him into the cage behind his office with injunctions to his deputy to allow him to see no one except under special instructions.

"You're all right for the night," he said. "Water, grub'll be supplied from the Bon Ton restaurant, two books and a paper. I'll tell Bill Masters that you want to see him. He's your attorney, ain't he? By the way Dustin... You might be doing some little figuring on your own account."

The penalty for murder in this State is hanging! Cattle-rustlers' and belis accessory before the act in a shootin' case carries a stiff sentence too...

With this Partisan arrow Gary left him. Dustin, appalled, stared after him. What could the man know? The very instant he brought the arrow to his forehead in great beads. Surely he had covered his tracks too well to have been discovered. What Gary had said must be just a shot in the dark? He could know nothing. Even if Peypot Gregg had said all he knew, no jury would convict a man on the testimony of one witness and that witness a drug-addict. For the charge on which he was arrested Dustin knew he would be free in a short time.

But Sam Dustin failed to remember that the day was Saturday and that Monday was May the thirteenth, a National Holiday and that all offices would be closed. That three-day period gave Stone all the time he needed but it was late when he rode up Secco's main street, tired and dirty, with Peypot sitting at his heels and scared to death. Jameson espied them first and fairly dragged Stone in his office.

"Well... I said Jameson quivering with excitement.

"It got me to convict any man before a fair-minded jury," said Stone. "His Gary arrested Dustin?"

"He nailed him Saturday night," said Jameson. "He'll nail you while Dustin's squealing like a stuck pig over what he aims to do when he gets loose and Spike Goddard is through to see from the window if Gary don't run Dustin loose tomorrow. You'd better look out for Dustin when he gets loose."

"He'll not loose Kane," said Stone. "Listen to me, Jameson..."

And Stone told him all that had taken place and wound up by saying Kane's old shoes were the shattering evidence.

At the end of the skull the little editor arched back.

"Take that thing out o' here," said Kane. "I got no use for it."

"You might have to get it edited the paper," grinned Stone. "Wait a bit, old man. I'm convinced that Dustin killed Kne in the silver dollar."

He knew the motive. Kane took Dustin into the hills to show him the gold mine that he found on Hourglass lands. Dustin didn't want to divide with Kane so he killed him and laid the blame very cleverly on that poor fool Gregg.

He'd killed Kane with that rock that he sneezed with and he'd never have discovered it. But he didn't. He shot him. Here's the bullet that smashed his skull. Of course we've got to show that Peypot told the truth when he said he got the gun from Dustin when he shot Kane. Get that, you fellows!"

And he showed them the bullet that he sneezed with and he'd never have discovered it. But he didn't. He shot him. Here's the bullet that smashed his skull. Of course we've got to show that Peypot told the truth when he said he got the gun from Dustin when he shot Kane. Get that, you fellows!"

**HOW I HATED CLEANING TOILET BOWLS**

UNTIL I USED GILLETT'S LYE

Stains flush off this easy way

Once each week sprinkle Gillett's Pure Flank Lye—full strength—into the bowl. Off come all stains without scrubbing! Kills germs, freshens odors as it cleans. Frees trap and drain pipe from obstructions. Absolutely harmless to plumbing and enamel. Get a tin today!

\* Never dissolve in hot water. The action of the lye itself heats the water.

**GILLETT'S LYE EATS DIRT**

**Honors For Rudyard Kipling**

Now Approaching His 70th Birthday, His Name May Appear in Jubilee List

To Rudyard Kipling, often referred to as "the forgotten man of English letters," may come at last some measure of official homage which his legion of admirers has thought is long overdue.

Now approaching his 70th birthday, the writer is being mentioned as an almost certain recipient of the "solidus" poet," who was the first Englishman to receive the Nobel prize for poetry almost 30 years ago.

Although his famous "Recessions" was chosen to be read at Queen Victoria's second jubilee in 1897, he has been given no official part on the program of celebrations this year of King George's 25 years on the throne.

**THE RHYMING OPTIMIST**

By Aline Michaels

SO WOULD I LIVE

The kitten frolicked on the floor. Where poppies daisies played, And stretched a silken paw to catch a leaf of shade.

He was a thing of matchless grace; Life's pulsing, vibrant toy, His every movement, every breath 'Was full of joy.

For him the now was all, he knew The moment, nothing more. All time to come meant naught, nor all Time gone before.

So would I live, so would I lose The thought of days to be Or of days past. My universe A shadow tree!

**Preferred Prison**

Afraid of being sent to a Nazi concentration camp, Charles Klein, a Saskatchewan, aged 25, sought to be placed in a French prison by striking a captain violently in the face as the officer was examining refugees entering France from the Saar. Klein was arrested and lodged in prison at Saarbrücken.

Milk baths are offered guests at hotels on the island of Oahu, near Japan, because milk is plentiful and water is scarce.

**Gets Coveted Medal**

The U.S. war department has presented the coveted "Purple Heart" medal to Johnny John and world war veteran of Wetumka, Oklahoma. He was cited for bravery and severe wounds sustained in the Meuse-Argonne battle of 1918.

Inhabitants of England 2,000 years ago played dominoes, with carved bone pieces unearthed from excavation at Maiden Castle. But there was no double six.

The first cut in 400 years has just been made in the walls of Salisbury cathedral in England to make way for a new door in the north choir aisle.

**3rd. The Value CLASS**

Easy public rooms and cabins... excellent food and plenty of it... good sun decks... happy days of sport and fun... fine steady ships.

## BASEBALL

The Jr. ball players of the town have taken advantage of the few favorable baseball days of late by turning in their first game of the season. The A.H.S. boys are shaping into a snappy aggregation and have been a credit to the town to date.

**BLACKIE 4—ARROWWOOD 1**  
Thursday last the scene of action was at the Blackie Ball Park with the A.H.S. opposing the Blackie Jrs. In a fast nine inning game the Blackie team emerged victorious by a 4-1 score which they were able to take in the third inning on several lucky "breaks". The game developed into a pitcher's duel, so that the crowd assembled enjoyed an excellent display.

**BLACKIE JRS. 13—A.H.S. 9**  
In a return engagement played on the Arrowwood diamond Monday night the more experienced Blackie juniors were again able to emerge victorious over the A.H.S. A large crowd were on hand to cheer our local Juniors and for this hearty support the A.H.S. boys are very grateful. Pitchers for both clubs found the going plenty hard and were given only fair support. Leroy Richards retired in favor of Joe Dumka during the fifth inning, while Wellman retired in favor of Woolridge during the 4th inning. Harper of Vulcan was a tower of strength to the Blackie team. Features of the game were: a spectacular running catch by Floyd Cary who gathered in

**QUEENSTOWN 3—ARROWWOOD 3**

The A.H.S., strengthened by the aid of a few of the seniors made their debut in Queenstown for a practice game Tuesday evening. The Queenstown boys outbait the Arrowwood boys but could not score the winning run. Dumka, pitching for Arrowwood during the first three innings, had a comparatively easy time of it and did not extend himself. The veteran, Fred Miller, pitched the last 4 innings and ticked off 7 strikeouts. Our local juniors, when steadied by a few more experienced players can put up a gameless exhibition.

## 12 Rules for Tire Health

There are 12 simple rules for tire health, which if followed would cut the average motor's tire bill anywhere from 25 to 50 per cent annually, writes K. D. Smith, technical superintendent, tire division, of The B. F. Goodrich Company, Akron, Ohio, in a recent issue of The American Legion Monthly. These rules are:

1. Maintain recommended or rated air pressure is all times. The recommended pressure is a minimum below which tires should never be allowed to fall. Nor should pressure be kept much above this figure.

2. Whenever you put on a new tire, or whenever a tire has been off the rim, do not start on a long drive with implicit faith that its air pressure is correct. A tire may lose several pounds pressure immediately after it is put on the rim. Have it checked three or four miles down the road.

3. Do not run a tire constantly on the same wheel. Shift your tires from wheel to wheel, which will produce even wear.

4. Do not rely on the generally accepted theory that all is all right to run old tires on back wheels, because a rear tire blow-out is less dangerous than one in front. A rear tire blow-out is every bit as dangerous as one in front.

5. Don't go around corners at high speed. It wears tires faster than anything else.

6. Except to prevent an accident, do not slam on the brakes. The most gradual braking possible is best for tires.

7. Have your wheel alignment checked occasionally, rear as well as front.

8. Look over your tires occasionally to see how they are getting along.

9. Do not drive too fast on hot, dry roads. In extremely hot weather on dry roads, high speeds heats the tires, hastens deterioration.

10. Start up gently, do not spin the wheels.

11. Do not bump into curbs or run over them. Tires have not yet been perfected that will permit this kind of abuse without injury.

12. If your car begins to steer queerly, slow down, pull off the road, and inspect all four tires carefully. Often this action comes when a tire is preparing to blow. Inspection may prevent accident.

June 3rd—9th Annual Sports Day at Arrowwood.

## The 1935 Ford V-8

is acclaimed by everyone for its stunning beauty, luxurious upholstery and smart appointments. Beneath shimmering beauty is Gibraltar-like strength and safety—a welded-into-one-piece solid steel body. The extremely strong X-type frame of last year has been further strengthened. The breaks are more powerful and operate with less pedal pressure. Big Air-Balloon tires give more road contact and resist tire roll on fast corners. De Luxe models are equipped with Safety Glass all around—at no extra cost.

Our new SPECIAL WHITE GAS is a refined product and is meeting with general approval — at a new low price.

Autolene Oils, the life-saver of gas engines—a weight for every purpose at attractive prices.
